

Fundraising ribbon design by Lesley F Williams

This pattern is my gift to any charity fundraisers.

Start with worker pair on temp pin. Hang outer pair of passives on top pin. Hang new pair of passives on temp pin, lay it in the centre of passive pairs and work through, remove temp pin and gently snuggle new passive thread into position. Repeat till you have 8 pairs of passives. You can add more or less depending on how thick your thread is.

Showing position of twists (optional)

Crossing. When you reach the crossing, remove the corner pin and use a fine crochet hook or lazy Susan (bent needle) to sew into the existing edge to secure the top piece of the ribbon.
